

SAVE MONEY WITH BECKER BOILER SUMMER SERVICE!

IT'S SPRINGTIME - THINK BOILERS!

Becker Boiler Company offers **Summer Service** and **Preventative Maintenance** to get your boiler running at peak performance **before** winter. Summer service allows our qualified technicians to notify you of any necessary repair work **before** the next heating season.

The following is provided as part of this service:

Fireside Cleaning

- Clean all flues and tube sheets
- Wash coat all brick work and refractory with compound

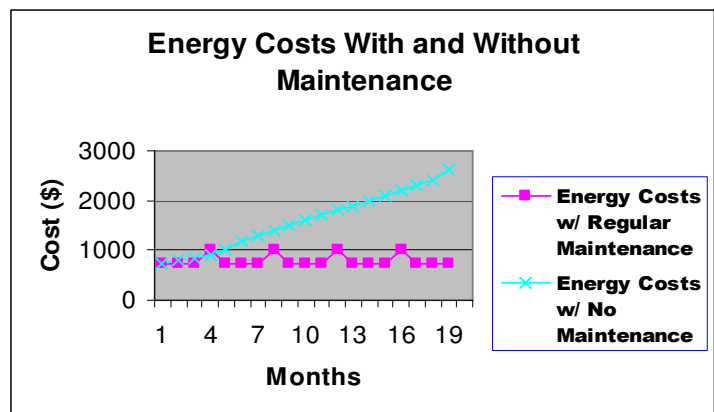

Waterside Cleaning

- Drain and flush waterside of boiler
- Clean float chambers in water columns
- Prepare boiler for insurance inspection, if required
- Install all handhole, man way, and low water cut off gaskets

Burner

- Check and clean all component parts of burner
- Start unit *
- Make necessary adjustments to burner
- Check all unit operations
- Provide combustion analysis

**If load demand prevents us from setting combustion when cleaning is complete, we will return to make adjustments when load is available.*

Let Becker get your boiler ready and operating at its highest efficiency now so you don't have to worry about it all this summer. Call us today at one of our locations nearest you to schedule an appointment and start saving money today!
